

## Weekly Progress Report

WPR008  
OKI Toshiyuki  
2004/07/16

1. We held a meeting in order to discuss the revision of a work-schedule for LOI RF system. The details will be reported by Yoshiro on our collaboration web site:

[http://www-accps.kek.jp/Low-Impedance\\_Cavity/index.html](http://www-accps.kek.jp/Low-Impedance_Cavity/index.html) .

2. HPD was moved to MICE Hall with the new RF shield panels, and both triode and tetrode power tubes were installed in HPD as shown in Photo 1.
